Important Railroad Changes. The details of an important railway consolidation of the Pacific Coast, has leaked out, and the parties interested admit that the 'conjunction is effected. The result will be the completion of a rival line to San Francisco and San Diego. The negotiation was carried on a few weeks ago by C. P. Huntington and ex-Governor Leland Stanford, for the Southern Pacific, and General Manager C. W. Rogers for the Atlantic and ible to surrounding influences than Pacific, and President W. B. Strong for the Santa Fe. By the terms of ples' mouths. Set, uncovered, for the new arrangement the South- an hour near a dish of onions, and ern Pacific sold to the Atlantic & it will taste of the vegetable. Set Pacific; the Santa Fe and San in a mouldy cellar for a little space Francisco lines being really the and it will take on so much of the purchasers, its Mojave division of offense of the place that it cannot 240 miles in length from Mojave to be used as food. In its properties Needles, and it is conceded to the it is akin to blood-a vital fluid-Atlantic & Pacific the right to run and wonderfully susceptible to its trains from Mojave to Oakland every taint that is in the surroundpier, a distance of 382 miles. By ing air. If the microbe or bicillus this contract, the Atlantic & Pa- | theory is correct, what would be a cific, which is owned jointly by the | more natural conductor for the Santa Fe & St. Louis and the San | germs than milk? We think there Francisco lines, extends its road to is great reason in the theory. We Mojave, and secures the right to believe that in every case where run its trains virtually into San diphtheria has prevailed in this Francisco, California. The South- city, it will be found that the chilern, now reaching from San Diego dren have used milk as a main arto San Bernadino, 130 miles, is to ticle of food, and in a great many be extended to the Junction, with the purchase of the Mojave divis- fact as to whether the milk was ion. It will then be formally transferred to the Atlantic & Pacific which will be thus extended to the Bay of San Diego. This is the first advent into California of a foreign railroad company. Heretofore the Southern Pacific and Central Pacific companies have controlled every mile of track that led out or into the State. The Atlantic & Pacific will now enter San Francisco and San Diego, and to the latter point will own its track. Traffic arrangements will at once be made with the Pacific Coast Steamship Company by which freight can be delivered at San Francisco on the Atlantic & Pacific Company's own terms. The new line will not quite enter the field as a rival of the old companies, but trouble is anticipated between the two com-

panies in less than six months. BILLS ALLOWED
